

Box of Scraps

First Tech Challenge #26144

Sponsorship Packet

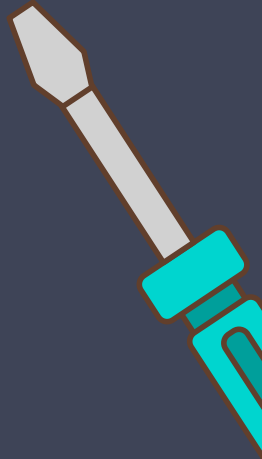

Who Are We?

Box of Scraps is a rookie community First Tech Challenge (FTC) team based in the Santa Clara area. Our team consists of motivated and aspiring individuals who are dedicated to enhancing their knowledge of all things STEM and to harboring a new generation of future ready engineers.

Who is First?

First (For Inspiration and Recognition of Science and Technology) is a non-profit organization dedicated to running STEM youth competitions such as FLL, FTC, and FRC. They help teens assume leadership roles in teams and build their STEM skills for the future.

What is FTC?

FTC, which stands for “FIRST Tech Challenge”, is, put simply, a robotics competition for middle and high school students (7th-12th grade). Every September, a challenge is issued that FTC teams must work to meet. With the help of mentors and volunteers, these teams design, program, and build working classroom-scale robots before competing against each other in two-on-two matches. FTC provides students with the opportunity to gain valuable STEM skills, engineering experience, teamwork skills, and confidence in themselves.

<ul style="list-style-type: none">• Total	\$7,000-\$14,000

How Can You Help?

Financial Sponsorship

Most simple and direct form of supporting us, you give us an amount of money and in return we put your logo and name on our website, merch, and robot as described in the Sponsorship Tiers. This money goes a long way enabling us to buy parts for the robot and fund other team expenses like registration.

Product Sponsorship

Another way of supporting us is by giving us your products! Robot parts such as motors, servos, channels, sensors, etc. and services like CNC and laser cutting are appreciated. Sometimes we cannot normally acquire these products or services and receiving them from a sponsor helps a lot. These donations also allow us to spend our cash funds on other
